⁽¹⁾ The information contained in this Financial Supplement is preliminary and based on data available at the time of the earnings presentation. Investors should refer to our Quarterly Report on Form 10-Q for the period ended September 30, 2014 once it is filed with the Securities and Exchange Commission.

⁽²⁾ We adopted ASU 2014-01 “*Accounting for Investments in Qualified Affordable Housing Projects*” as of January 1, 2014. Prior period results and related metrics have been recast to conform to this presentation.

Table 5: Notes to Financial & Selected Metrics and Consolidated Financial Statements (Tables 1 — 4)

** Not meaningful.

- (1) Certain prior period amounts have been recast to conform to the current period presentation.
- (2) We recorded the following related to the mortgage representation and warranty reserve: a provision of \$70 million in Q3 2014 (the entire amount represents a provision of \$70 million before taxes in discontinued operations), a benefit of \$18 million in Q2 2014 (which includes a benefit of \$29 million before taxes in continuing operations and a provision of \$11 million before taxes in discontinued operations), a benefit of \$33 million in Q1 2014 (which includes a provision of \$14 million before taxes in continuing operations and a benefit of \$47 million before taxes in discontinued operations), a provision of \$33 million in Q4 2013 (which includes provisions of \$3 million before taxes in continued operations and \$30 million before taxes in discontinued operations) and a benefit of \$4 million in Q3 2013 (which includes a benefit of \$13 million before taxes in continuing operations and a provision of \$9 million before taxes in discontinued operations). Historically, the majority of the provision for representation and warranty losses is included net of tax in discontinued operations, with the remaining amount included pre-tax in non-interest income. The mortgage representation and warranty reserve was \$1.1 billion as of September 30, 2014, \$1.2 billion as of December 31, 2013 and \$1.1 billion as of September 30, 2013.
- (3) Total net revenue was reduced by \$164 million in Q3 2014, \$153 million in Q2 2014, \$163 million in Q1 2014, \$185 million in Q4 2013 and \$154 million in Q3 2013 for the estimated uncollectible amount of billed finance charges and fees.
- (4) Acquisition-related costs include transaction costs, legal and other professional or consulting fees, restructuring costs, and integration expense.
- (5) Dividends and undistributed earnings allocated to participating securities, earnings per share, and preferred stock dividends are computed independently for each period. Accordingly, the sum of each quarter may not agree to the year-to-date total.
- (6) Tangible book value per common share is a non-GAAP measure calculated based on tangible common equity divided by common shares outstanding. See “Table 14: Reconciliation of Non-GAAP Measures and Calculation of Regulatory Capital Measures” for additional information on tangible common equity.
- (7) Loans held for investment includes acquired loans. We use the term “acquired loans” to refer to a certain portion of the loans acquired in the following transactions: (i) May 1, 2012 transaction in which we acquired substantially all of HSBC’s credit card and private-label credit card business in the United States; (ii) the February 17, 2012 transaction where we acquired the assets and assumed the liabilities of substantially all of ING Direct; and (iii) the February 29, 2009 Chevy Chase Bank acquisition. These loans were recorded at fair value at acquisition and subsequently accounted for based on estimated cash flows expected to be collected over the life of the loans (under the accounting standard formerly known as “SOP 03-3”). The table below presents amounts related to acquired loans accounted for under SOP 03-3:

	2014	2014	2013	2013	2013
	Q3	Q2	Q1	Q4	Q3
<i>(Dollars in millions) (unaudited)</i>					
Acquired loans accounted for under SOP 03-3:					
Period-end unpaid principal balance	\$ 25,726	\$ 27,117	\$ 28,549	\$ 29,761	\$ 31,377
Period-end loans held for investment	24,685	26,019	27,390	28,550	30,080
Average loans held for investment	25,104	26,491	27,760	29,055	30,713

- (8) Calculated based on annualized total net revenue for the period divided by average interest-earning assets for the period.
- (9) Calculated based on annualized net interest income for the period divided by average interest-earning assets for the period.
- (10) Calculated based on annualized income from continuing operations, net of tax, for the period divided by average tangible assets for the period. Return on average tangible assets is a non-GAAP measure and See “Table 14: Reconciliation of Non-GAAP Measures and Calculation of Regulatory Capital Measures” for additional information.
- (11) Calculated based on the annualized sum of (i) income from continuing operations, net of tax; (ii) less dividends and undistributed earnings allocated to participating securities; (iii) less preferred stock dividends, for the period, divided by average common equity for the period. Our calculation of return on average common equity may not be comparable to similarly titled measures reported by other companies.
- (12) Calculated based on the annualized sum of (i) income from continuing operations, net of tax; (ii) less dividends and undistributed earnings allocated to participating securities; (iii) less preferred stock dividends, for the period, divided by average tangible common equity for the period. Return on average tangible common equity is a non-GAAP measure and our calculation may not be comparable to similarly titled measures reported by other companies. See “Table 14: Reconciliation of Non-GAAP Measures and Calculation of Regulatory Capital Measures” for additional information.
- (13) Calculated based on non-interest expense for the period divided by total net revenue for the period.
- (14) Effective Q2 2014, we changed our presentation from total full-time equivalent employees to total employees. All prior periods have been recast to conform to the current presentation. During this change, we determined that we had previously understated the total number of full-time equivalent employees by approximately 7%.
- (15) Calculated based on annualized net charge-offs for the period divided by average loans held for investment for the period.
- (16) Beginning on January 1, 2014, we calculate our regulatory capital under Basel III Standardized Approach subject to transition provisions. We calculated regulatory capital measures for periods prior to the first quarter of 2014 under Basel I. Ratios as of the end of Q3 2014 are preliminary and therefore subject to change. See “Table 14: Reconciliation of Non-GAAP Measures and Calculation of Regulatory Capital Measures” for information on the calculation of each of these ratios.
- (17) TCE ratio is a non-GAAP measure calculated based on TCE divided by tangible assets. See “Table 14: Reconciliation of Non-GAAP Measures and Calculation of Regulatory Capital Measures” for additional information.

CAPITAL ONE FINANCIAL CORPORATION (COF)

Table 13: Notes to Loan and Business Segments Disclosures (Tables 7—12)

** Not meaningful.

- (1) Certain prior period amounts have been recast to conform to the current period presentation.
- (2) Nonperforming assets consist of nonperforming loans, real estate owned (“REO”) and other foreclosed assets. The nonperforming asset ratios are calculated based on nonperforming assets for each category divided by the combined period-end total of loans held for investment, REO and other foreclosed assets for each respective category. Nonperforming assets related to acquired loans are excluded from the calculation for our home loans and auto businesses.
- (3) Includes the net realizable value of auto loans that have been charged down as a result of a bankruptcy filing and repossessed assets obtained in satisfaction of auto loans.
- (4) Commercial Banking revenue related to qualified housing credits is presented on a taxable-equivalent basis. As a result of the adoption of ASU 2014-01 “*Accounting for Investments in Qualified Affordable Housing Projects*” as of January 1, 2014, losses related to these investments are now recognized, along with the associated tax benefits, as a component of income taxes attributable to continuing operations instead of non-interest expense. As such, losses related to these investments decrease the overall tax benefits recognized as a component of income taxes attributable to continuing operations and taxable-equivalent revenue in the Commercial Banking segment. This decrease in revenue is offset by an increase in revenue in the Other segment. Prior period amounts have been recast to conform to this presentation.
- (5) Some of our tax-related commercial investments generate tax-exempt income or tax credits. Accordingly, we make certain reclassifications within our Commercial Banking business results to present revenues and yields on a taxable-equivalent basis, calculated assuming an effective tax rate approximately equal to our federal statutory tax rate of 35%.
- (6) The transfer of the Best Buy Stores, L.P. (“Best Buy”) portfolio to held for sale resulted in an increase in the average yield for Domestic Card and Total Credit Card of 121 basis points and 110 basis points, respectively, in Q3 2013. The sale of the Best Buy portfolio was completed on September 6, 2013.
- (7) Calculated by dividing annualized interest income for the period by average loans held for investment during the period for the specified loan category. Annualized interest income excludes various allocations including funds transfer pricing that assigns certain balance sheet assets, deposits and other liabilities and their related revenue and expenses attributable to each business segment.
- (8) The transfer of the Best Buy portfolio to held for sale resulted in an increase in the net revenue margin for Domestic Card and Total Credit Card of 136 basis points and 123 basis points, respectively, in Q3 2013. The sale of the Best Buy portfolio was completed on September 6, 2013.
- (9) Represents the net reduction in interest income attributable to non-SOP 03-3 card loan premium amortization and other intangible accretion associated with the May 1, 2012 transaction in which we acquired substantially all of HSBC’s credit card and private-label credit card business in the United States.
- (10) Includes credit card purchase transactions, net of returns for both loans classified as held for investment and held for sale. Excludes cash advance and balance transfer transactions.
- (11) Criticized exposures correspond to the “Special Mention,” “Substandard” and “Doubtful” asset categories defined by bank regulatory authorities.

CAPITAL ONE FINANCIAL CORPORATION (COF)

Table 14: Reconciliation of Non-GAAP Measures and Calculation of Regulatory Capital Measures

Beginning on January 1, 2014, we calculate our regulatory capital under Basel III Standardized Approach subject to transition provisions. Prior to January 1, 2014, we calculated regulatory capital under Basel I as shown below:

	Basel III Standardized			Basel I	
	2014 Q3	2014 Q2	2014 Q1	2013 Q4	2013 Q3
<i>(Dollars in millions) (unaudited)</i>

Tier 1 leverage ratio ⁽⁷⁾	10.6	10.7	10.4	10.1	10.0
Tangible common equity ("TCE") ratio ⁽⁸⁾	9.6	9.5	9.6	8.9	9.1

Reconciliation of Non-GAAP Measures

We report certain non-GAAP capital measures that management uses in assessing its capital adequacy. These non-GAAP measures include tangible common equity ("TCE") and tangible assets. The tables below provide the details of the calculation of our non-GAAP capital measures and regulatory capital. While our non-GAAP capital measures are widely used by investors, analysts and bank regulatory agencies to assess the capital position of financial services companies, they may not be comparable to similarly titled measures reported by other companies.

	2014 Q3	2014 Q2	2014 Q1	2013 Q4	2013 Q3

Risk-weighted assets ⁽²⁾	<u>\$ 228,971</u>	<u>\$ 226,172</u>	<u>\$ 219,047</u>
Common equity Tier 1 capital ratio ⁽⁴⁾	12.7%	12.7%	13.0%

(1) Total risk-based capital equals the sum of Tier 1 capital and Tier 2 capital.

(2) Risk-weighted assets continue to be calculated based on Basel I in 2014.

(3) Regulatory capital metrics as of the end of Q3 2014 are preliminary and therefore subject to change.

(4) Common equity Tier 1 capital ratio is a regulatory capital measure calculated based on Common equity Tier 1 capital divided by risk-weighted assets.

(5) Tier 1 risk-based capital ratio is a regulatory capital measure calculated based on Tier 1 capital divided by risk-weighted assets.

(6) Total risk-based capital ratio is a regulatory capital measure calculated based on Total risk-based capital divided by risk-weighted assets.

(7) Tier 1 leverage ratio is a regulatory capital measure calculated based on Tier 1 capital divided by average assets, after certain adjustments.

(8) TCE ratio is a non-GAAP measure calculated based on TCE divided by tangible assets.

(9) Includes impact of related deferred taxes.

(10) Includes related surplus.

(11) Amounts presented are net of tax.

(12) Amounts based on transition provisions for regulatory capital deductions and adjustments of 20% for 2014.
