As of March 31, 2010, approximately \$11.88 billion of outstanding receivables, representing approximately 30.04% of the total outstanding receivables in the Master Trust Consumer Segment at such date, related to accounts that were originated on or before December 31, 2001, and are not included in the table above.

The net loss rate is calculated by dividing the gross losses, net of recoveries, by the average amount of principal receivables outstanding for the applicable period.

For the year ended 2006, the net loss rate excludes approximately \$10.42 million in recoveries generated from the sale of the Credit Recovery Services portfolio. The loss rate would be lower if this amount was included.

Annualized figures are not necessarily indicative of actual results for the entire year.

The origination date for each account is the date on which the account is opened and an account number is assigned.

For each account comprising the Master Trust Consumer Segment, performance data is based on the account's performance on and after the date on which such account was added to the Master Trust Consumer Segment.
