As of September 30, 2012, approximately \$9.31 billion of outstanding receivables, representing approximately 27.35% of the total outstanding receivables in the Master Trust Consumer Segment at such date, related to accounts that were originated on or before December 31, 2001, and are not included in the table above

Yield is calculated by dividing the amount of prior month billed finance charges and fees, and interchange by the average principal receivables outstanding for the applicable period. Finance charges and fees include monthly periodic rate finance charges, the portion of the annual membership fees amortized on a monthly basis, cash advance fees, late charges, overlimit fees and other miscellaneous fees.

Annualized figures are not necessarily indicative of actual results for the entire year.

The origination date for each account is the date on which the account is opened and an account number is assigned.

For each account comprising the Master Trust Consumer Segment, performance data is based on the account's performance on

and after the date on which such account was added to the Master Trust Consumer Segment.

No consumer assets were added during 2012.

The following table sets forth the yield experience for the Capital One Master Trust Small Business Segment for each of the periods shown. In each case, the information is grouped by year of account origination. There can be no assurance that the yield experience for receivables in the future will be similar to the historical experience set forth below.
